

An ACCOUNT of the Proceedings of the GOVERNORS of St. GEORGE'S HOSPITAL near Hyde-Park-Corner, from the First Institution, October 19, 1733. to the Third of January, 1738. Together with a LIST of the Governors and Contributors, and an ABSTRACT of some of their By-Laws.

By Order of the General Board, Friday, February the Ninth, 1738.

THE Governors of St. George's Hospital having carried on the Charity there above Five Years, think themselves obliged, in Justice to their Subscribers and Benefactors, to publish an Abstract of their Accounts to the third Day of January last inclusive, together with a short State of their Proceedings; that the Publick may judge of the Application of their Bounty, and the extensive good Consequence of it.

THIS Undertaking was set on Foot soon after Michaelmas, 1733. by some Gentlemen who were before concerned in a Charity of the like kind, in the lower Part of Westminster. They judged this House convenient for their Purpose, on account of its Air, Situation, and Nearness to Town; procured a Lease of it, and opened a Subscription for carrying on the Charity here. The Subscription increased so fast, that on the 19th of October we were formed into a regular Society, and actually began to receive Patients on the First of January following.

How visibly the Blessing of God has supported this Design, appears from the subsequent Accounts of Persons relieved, and of the Money which enabled us to defray the considerable Expence of enlarging the House, small as it was when we took it, to its present Dimensions; whereby about Two Hundred Patients are constantly accommodated within our Walls: And we rely upon the same kind Providence, to enable us to finish the whole Plan of Building, which will then contain near Three Hundred.

THIS noble Attempt to found Hospitals on the sole Support of Voluntary Contributions, tho' common in other Countries, is of late Date here. Many doubtless would embrace the Means of promoting so charitable an Institution, were they rightly informed of the Nature of it, and how it is here carried into Execution: Which we therefore take this publick Opportunity to mention.

IT is to supply those who ought to be the chief Care of the Publick, the honest and laborious Poor, with Advice, Medicine, and every Necessary of Cure, when so miserably sunk in Health that they can be no longer serviceable to the Publick, or find Comfort in themselves; and this without any Expence to themselves or Families, and with very little to the charitable Contributor.

THE several munificent Foundations in the City of London, and elsewhere, on established Revenues, show how compleatly this End is attained by the Provision of Hospitals. A little Attention will discover how inadequately it must be answer'd by any other Method. Direct Benefactions of Money to the Poor, Sick and Lame (unless so large, as to take them quite out of the Rank of the Poor) will fall short of the common Charge of Medicine and Attendance. If the many generous Professors of Physick and Surgery should add their gratuitous Assistance, yet can it not be supposed their warmest Benevolence could ever extend itself to any great Number of Objects at their several Homes. Or could this be done, even in and about these two Great Cities, how few of the industrious Poor have a Home fit to receive the Bed of Sickness, however furnished with the few Necessaries of a Life of Health and Vigour. In yet more tolerable Situations, if the Family of the sick Person is to bear the Burden of Supporting him, when restrain'd at the same Time from those Labours which should furnish that very Support, by their constant Attendance on him, the Dissipation of their little Stock, and possibly a Load of accruing Debts, will very much diminish the Comfort of a Recovery.

THE Admission into an Hospital puts a plain End to all these Difficulties: And if we further take into account the Advantage of immediate Consultation in all difficult Cases; the Certainty of not only good, but proper Diet; of Medicines, both good in their kind, and regularly administered; clean and constant Attendance, and that by Persons versed in it, and of approved Diligence and Tenderness; it will surely appear that the Poorest have, in this Method of Charity, all the Helps towards Recovery, which even those of the better Sort could reasonably wish for.

THERE is yet a farther Benefit received, by the Poor thus brought into a regular Society: It regards no less than their eternal Welfare. It is with the utmost Pleasure we assure our Contributors that their Charity is found of infinite Use in this important Branch. Immediate Application is made to the Patients, according to their respective Ways of Life, both in Matters of Instruction and Devotion; and a Perseverance in this Care, enforced by the awakening Terrors of Death, or first Openings of Gratitude for Mercy received, so frequent in this Place, turns

their Thoughts upon themselves, fixes their Attention, and produces extraordinary Effects upon the most Ignorant and Abandoned. Many of them, utterly void of the very Rudiments of Christian Education, have been brought to a Sense of rational and practical Faith and Duty, during their Abode here: And Others, who had rioted out continual Health by continual Vices, have been softened into such a State of Penitence and Reformation, as either promises a comfortable Hope in their latter End, or by their exemplary Behaviour when discharged, an Increase of true Religion and Piety amongst the Common People.

SUCH are the glorious Effects it has pleased God's infinite Goodness to produce, by Subscriptions merely during the Will of the Contributor; and many of them not exceeding one Guinea a-Year. The Number of Proper Objects is amply sufficient to employ the Bounty of the Rich: And this Undertaking has liberally shared of their superior Fortunes. Yet it is thought proper to make express Mention of this moderate Sum, lest Strangers of less Ability should be ignorant on how easy Terms they may at once perform almost every Species of Christian Charity.

TO these Purposes are admitted all such Poor, Sick and Lame (being recommended according to the Rules following) as the Hospital will contain. They are supplied with Advice, Medicine, Diet, Washing, Lodging, and some of the most Miserable with Cloaths also. The Physicians visit their Patients on Mondays and Fridays, and on all intermediate Days, whenever Occasion requires; and the Surgeons every Day: And on every Friday Morning there is a general Consultation of all the Physicians and Surgeons. No Security for their Burial or Removal is required; nor any Money, Gift or Reward, taken of them or their Friends, on any Account whatsoever. Those who die, if their Friends are unable, are buried at the Charge of the Society: And the Money collected in the Poor's Box at the Door, is kept as a separate Fund for Cloathing such Patients on their Discharge as stand in need of it; and furnishing those with some little Sum of Money, whose Distance from their Habitations, or other particular Necessities, require it.

A SELECT Number of Apothecaries, who are Governors, attend by Rotation as Visitors, to see that the Apothecary of the House takes due Care of the Medicines and Patients. Two Visitors are chosen every Week out of the Subscribers, to attend daily, and take Care, by an Examination of the Provisions and Patients themselves, that the Orders of the Society are punctually observed, that the Patients are treated in every thing with Order and Tenderness, and to make a Report in Writing of their Observations.

PRAYERS are read Daily to the Patients, a Sermon preach'd every Sunday, and the Communion administered every Month by the Chaplain. He attends at other Times for their Instruction, and the Performance of other religious Offices, as often as their Cases require; and when the Patients are discharged, a Book is given them for their farther Edification.

A BOARD of Governors meets every Wednesday Morning, to do the current Business of the Hospital, to receive and examine the Reports of the Visitors, to discharge and admit Patients, to receive the Complaints and Proposals of all Persons, and to prepare such Matters as are proper for the Consideration of General Boards. A General Board of all the Governors meets regularly five Times a-Year: And any five Governors, on extraordinary Affairs, may require the Weekly Board to summon a Special General Board, on fifteen Days Notice; the Business of which, and all General Boards, is then to be specified, and the Minutes thereof hung up in the Board-Room, till the Meeting of such General Boards.

EVERY Governor may vote at each of these Boards; unless any Claim of his be under Consideration; and then he is not to be present. In case any Difference or Dispute arises at these Boards, the Question is fairly stated, and determined by a Ballot, if required. The Governors are now in Number upwards of Three Hundred. No Person receiving Salary, Fee, or Reward from the Hospital, is capable of being a Governor: But every other Gentleman subscribing Five Pounds a-Year, or upwards, or giving one Benefaction of Fifty Pounds (altho' he be not an Annual Subscriber) is thereupon put in Nomination to be a Governor; and at the first General Court, which is held one full Month afterwards, is accordingly ballotted for by the Governors for the Time being.

WE hope it will appear that the great Ends of this Undertaking have been satisfactorily executed hitherto, by the Works which have been done; and that they always will be so, from the Nature of our Constitution, the Number and Condition of Governors furnishing an Argument of great Probability that the Contributions cannot be misapplied.

NONE are trusted with the Care of the Patients, either in Physick or Surgery, or any other Matter of Importance, but those who are first elected by the General Board, and remain always answerable to the same for their Conduct. All Orders are also made, or finally approved by General Boards. The Accounts are passed in the same Manner; and, together with the State of the Proceedings, submitted once a Year to the Judgment of the Publick. These Accounts are kept, and the Acts of every Board and Committee faithfully register'd in Books, by the Treasurers and Clerk; and a Register is kept of all the Patients. The Physicians, Surgeons, Visiting Apothecaries, and Treasurers, are all Governors, and add to their Contributions the more important Charity of their gratuitous Good-Offices in these Stations. The present Chaplain is also a Governor, and has performed the very valuable Charity of attending the Patients, in the Manner before mentioned, almost from the Foundation of this Society, without any Reward from the Charity: In consideration whereof, and to enable him to continue such his Good-Offices, without diminishing the General Fund of the Hospital, an Order was made at a General Board held the fourth Day of August last, in the following Words; Resolved, "That a Subscription be opened for raising an Annual Allowance for Mr Fraser, as Chaplain of this Hospital; to which any Person "is to be at liberty to subscribe any Sum not exceeding one Guinea, nor "less than Five Shillings per Annum, as they shall think fit." As every Governor has a Right to act at all Boards, and to enquire into all the Affairs of the Society, they are hereby desired to make frequent Use of this Power, and assured that their Presence to this Purpose is considered as a very valuable Part of their Benefaction.

THE Physicians are, Dr William Wasey, Dr David Ross, Dr Charles Peters, Physician Extraordinary to His Majesty; Dr John Baillie, Dr Benjamin Hoadley, and Dr Addison Hutton. Ambrose Dickins, Claudius Amyand, Esqrs; Serjeant-Surgeons to His Majesty; William Cheselden, Esq; Surgeon to Chelsea College, and John Pawlet, Esq; Surgeon-General to the Army, have, at the Desire of the Society, promised their Assistance in all extraordinary Cases, to consult with the Surgeons of the House, upon the same Foot as in private Practice; and to attend the Practice, when they please, at the usual Hours of Dressings. The Surgeons are, Mr James Wilkie, Mr David Middleton; John Wreden, and Cesar Hawkins, Esqrs; Surgeons to his Royal Highness the Prince of Wales. The Visiting Apothecaries are, John Warren, and Daniel Graham, Esqrs; Apothecaries to His Majesty; John Allen, Esq; Apothecary to His Majesty's Household; Mr Isaac Rand, Mr John Clarke, Mr Andrew Mitchell, Mr Thomas Graham, and Mr James Fraser. The Treasurers are, Joseph Hudson, Esq; and Mr Richard Aspinwall; and the Rev. Mr Hugh Fraser, Chaplain.

THE Contributors are desired to send their Subscriptions to the Treasurers at the Weekly Board, held every Wednesday Morning in the Hospital. And,

ALL Persons who are disposed to encourage this Charity, are desired to send their Subscriptions or Benefactions, with their Names and Places of Abode (if they think proper) in the same Manner. And in order to

supply the current Expence of this Charity, the Subscribers are requested to continue to pay their Yearly Subscriptions in Advance.

TO prevent Uncertainty and Confusion in the Estimate of our Revenue and Accounts, it was ordered, by a General Board, that Circular Letters should be carried or sent by an Officer of the Society, to give Notice to those whose Subscriptions are in Arrear; which it is hoped no Subscriber can take amiss, in as much as the Consent of every one of them to be thus reminded, is included in the Act of their Representatives the General Board, who made this Order.

SUCH as chuse to be Benefactors by their last Will, have the following Form of a Legacy recommended to them.

Item. I give and bequeath unto A. B. and C. D. the Sum of upon Trust, and to the Intent that they, or one of them, do pay the same to the Treasurer or Treasurers for the Time being, of a Society, who now call themselves the Governors of St. George's Hospital near Hyde-Park-Corner; which said Sum of I desire may be applied towards carrying on the charitable Designs of the said Society.

ALL CONTRIBUTORS are desired to take Notice of the following BY-LAWS, viz.

THAT no Person shall be admitted a Patient (except in Cases of Accidents) without a Note from a Governor or Contributor, specifying the Name and Place of Abode of such Patient, and that he or she is a proper Object of this Charity.

THAT all Recommendations are ordered to be delivered every Wednesday Morning, by Nine of the Clock.

THAT in case any Out-Patients shall neglect coming for two Weeks successively, on the Day and Hour they are ordered to attend, such Out-Patients shall be discharged for Irregularity; except they have had Leave from the Physicians.

THAT no Person discharged for Irregularity be ever again admitted into the House, upon any Recommendation whatsoever.

THAT no Patient be suffered to go out of the House without Leave in Writing; and that no Leave be given to any Patient to go into St. James's Park, or the Green Park, called Constitution-Hill, upon any Pretence whatsoever, to avoid Offence.

THAT no Governor, Officer or Servant, do at any Time presume, upon pain of Expulsion, to take of any Tradesman, Patient, or other Person, any Fee, Reward, or Gratification of any kind, directly or indirectly, for any Service done, or to be done, on account of this Hospital.

THEY are also desired to take Notice, That when there is not Room for all the Patients recommended at one Time to be received into the House, those are taken in, whose Admission the Board are of opinion will most effectually answer the End of the Charity: And the rest, if Proper Objects, are admitted Out-Patients, till there is Room for them in the House. And,

THAT most Consumptive and Asthmatic Cases are more capable of Relief, as Out-Patients, than in the House.

An Account of the PATIENTS, for the Year 1738.

Patients discharged from St. George's Hospital since its first Receiving of Patients, on the 1st of January, 1733. to the 4th of January, 1737. — — 5945	
Patients in the House the 31st of December, 1737. — — — — — 201	} 732
Out-Patients at Ditto on the Books, — — — — — 531	
From above — — — — — 5945	In all 6677
Cured this Year 1738. — — — — —	1643
